

**SIX GOOGLE BARD
FEATURES
EVERYONE IS
TALKING ABOUT
IN MAY '23**

1. ACCESS FOR GOOGLE WORKSPACE ACCOUNTS

You can now use Bard to help with work, research, or other business needs, when signed into your administrator-enabled Google Workspace account.

2. READ MORE COMFORTABLY IN DIM LIGHT

Dark theme can make using Bard easier on your eyes in dim light.

3. EXPORT TO GOOGLE DOCS AND GMAIL

Bard speeds up and simplifies your workflow by giving you a way to export Bard's responses and edit them directly in these Google Workspace apps.

4. AVAILABLE IN MORE COUNTRIES AND LANGUAGES

You can now collaborate with Bard in Japanese and Korean, in addition to US English. We have also expanded access to Bard in all three languages to over 180 countries and territories.

5. MAKING SOURCES MORE USEFUL

Bard can now help you identify which parts of a response match a source. For the responses with sources, you'll see numbers alongside the response. By clicking on the numbers you will now be able to identify the section of the text that matches the source and easily navigate to it.

6. MORE CONCISE SUMMARIES

Bard is now better at summarizing information, which is especially helpful when you want to get the gist of a topic quickly. Bard won't always get it right, but will keep improving with your feedback.
